

Johnny Piper FOR MAYOR

Putting Clarksville First

"We deserve a Mayor with a vision and a commitment to progress. As Mayor, I will strive to see our city progressing steadily towards excellence. I want to see a city of opportunity – with ethical leadership, good jobs, and a first-rate quality of life. I am committed to earning the trust of our citizens and seeing this vision become a reality for the great people of Clarksville."

Johnny Piper with his wife, Donita and their two daughters, Sarah and Heather.

Refocus Our City

Clarksville is a city full of opportunity, but I am afraid we are stagnating and have lost our way. We must get Clarksville on the right track and moving forward again. Our children deserve to grow up in a safe community; our students should be able to find a good job and career here in Clarksville; and our families deserve a good quality of life. As your Mayor, I will put Clarksville first and get us all moving towards a common vision.

Ethical Leadership

Our city must demand ethical leaders who truly work in the best interest of the community – not their own interests. My only interest in serving as your mayor is my personal desire to see our community progress so we are proud to call Clarksville home. As your Mayor, I will restore your faith and trust in our city government by cleaning up city hall and passing comprehensive ethics reform that will apply to all city officials, elected or appointed.

Forge Partnerships

City officials must work in concert with businesses, organizations and our citizens to find solutions to the challenges that keep us from achieving our vision. As a successful entrepreneur, my experience in leading team efforts between the public and private sector has shown that we can build a bright economic future for Clarksville. By collaborating, we will get our community back on track and as your Mayor I will remain committed to this endeavor.

Open for Business

As Mayor I will be committed to bringing better and higher paying jobs to Clarksville. We have diverse and talented citizens with a strong work ethic – we need jobs that allow them to earn a good wage to support their families and with upward mobility and opportunity for them to grow. As a businessman and entrepreneur, I know how to improve our business climate in order to retain our current companies while making our community more attractive to future economic development opportunities.

Reduce Crime

The first and most important responsibility of city government is to provide a safe and secure community for our families. As Mayor, I will work to end the policies and procedures that have led to the recent lawsuits and get our police officers refocused on their job of keeping our families safe. Additionally, I will renew our focus on fighting crime and narcotics one neighborhood at a time, in order to clean up our city and provide a safe and enhanced quality of life for our families.

Manage Growth

Clarksville continues to grow too quickly. We must do a better job at balancing residential growth with commercial and industrial growth. This balance will help provide a long-term revenue source for our city. As Mayor, I will ensure we have a well-developed growth plan that makes our priorities clear – and, equally important, I will ensure our city has the discipline to stick to it.

Johnny Piper

Proud to Call Clarksville Home

Johnny Piper has been a proud part of our community for over 35 years. He and his wife Donita have raised their two daughters here, teaching them the same values we all share. Giving back to the Clarksville community has always been a part of Johnny Piper's life, whether through creating jobs as a business owner or contributing to various civic and church organizations, Johnny Piper is committed to improving our city.
